Final Note by the Second Member of Council.

29)
Subject:—

Certain principles to be adopted in granting mining leases in future in the State.

X
Letter No.2052 dated 23rd March 1916, was received from the Residency in which intimation was given that, if the Government of H. H. the Maharaja saw no objection, the Government of India would like the following principles to be adopted by the State in granting mining leases:—

(i) there should be no transfer of the interests conferred by a lease or sub lease, or any part of them, without the consent of the Government of His Highness the Maharaja, acting on the advice of the Government of India,

(ii) the area covered by any lease or sub lease should be such as to leave unallocated a substantial portion of the deposits, within the State territory, of the mineral affected, this condition being of special importance when the mineral is of rare occurrence,

(iii) no lessee or sub lessee should be permitted to enter into any arrangement with any other person or corporation for the joint control of the price, out-put or sale of the product.

3
2 (page 3)
V
2. In reply, letter No. Pol. 1145 dated 14th May 1917 was sent to the Residency that in regard to the first principle enunciated above, the existing rules contained sufficient safeguards against mining rights in the State passing into undesirable hands, in-as-much as under these rules no lease could be granted or permitted to be transferred except with the previous sanction of the Government and that acting upon a suggestion made in Residency letter X No. 5661 dated 12th August 1916 the Government had already taken measures to see that foreigners were not allowed to acquire such

rights in the State.

3. As regards the second principle it was stated that its practical application would be difficult and that each case would have to be disposed of on its merits and the Government would be prepared to take such steps as might be practicable in the direction suggested.

4. And in respect of the third principle the Residency were informed that the Government had no objection to adopt the proposal and that they were prepared with a view to give effect to the wishes of the Government of India in the matter to effect the following amendments in the form of the mining lease:-

CLAUSE 4. The lessors do hereby demise and grant unto the lessee exclusive license and liberty to search for, mine and raise all such minerals as are specifically mentioned in Schedule B, together with liberty for the lessee to remove, sell ^{and} ~~the~~ dispose of the minerals found or raised on or in the mining block or the intermediate or finished products obtained or prepared therefrom; "subject to the condition that he shall not, without obtaining the consent of the lessors, in writing, enter into any agreement with any other person or corporation outside the State for the joint control of the price, output or sale of the minerals or products."

And the lessee hereby covenants with the lessors that the lessee

14 (a) will not, without obtaining the consent of the lessors, in writing, enter into any agreement with any other person or corporation outside the State for the joint control of the price, output or sale of the minerals or products."

5. The First Assistant to the Hon'ble the Resident has requested ^{*}in his letter No.5412 dated 18th July 1917 that these amendments ^{Paper under disposal} may be effected.

to for 6. The accompanying draft order directing that the aforesaid
 amendments be made in the form of the mining lease, which has been
 agreed by the Members of Council, may be approved.

DIARY NO. *8407*

To

The Dewan of Mysore.

<i>15-16</i>
<i>Geol</i>
<i>59-15</i>
<i>1</i>

Dated Bangalore, *23rd* March 1916.

SIR,

I am directed to invite a reference to this office letter, Nos. 3257, ^Ndated the 9th July 1900, and 7159, ^Mdated the 4th November 1909, regarding the regulation of mining leases in the Mysore State.

2. Under the orders of the Government of India, the Durbar are authorised to sanction the grant or transfer of mining leases without reference to the Government of India whether the parties concerned are subjects of the State or outside capitalists, provided that any lease so granted or transferred is in accordance with the State rules, as approved by the Government of India, and does not cover an area exceeding 10 square miles. The grant or transfer of leases which do not fall into the above category requires, however, the sanction of the Government of India.

3. In the case of a valuable and important mining lease in South-ern India, it recently came to the notice of His Majesty's Secretary of State for India that, in spite of the precautions taken to the contrary in the grant of a lease, the concession had by financial manipulation passed into undesirable hands, and special measures were ~~from~~ necessary

necessary to release the concession from the control of the financial group under which it had been allowed to pass. In addressing the Government of India on the matter, the Secretary of State has emphasised the need for greater vigilance in scrutinising the terms of all leases or sub leases of mining rights in Native State territory, and has suggested the following guiding principles as suitable for adoption in future wherever circumstances permit:-

(i) There shall be no transfer of the interests conferred by a lease or sub lease, or any part of them, without the consent of the Durbar concerned, acting on the advice of the Government of India or of the Local Government with which it is in political relations;

(ii) the area covered by any lease or sub lease shall be such as to leave unallocated a substantial portion of the deposits, within the State territory, of the mineral affected, this condition being of special importance when the mineral is of rare occurrence

(iii) no lessee or sub lessee shall be permitted to enter into any arrangement with any other person or corporation for the joint control of the price, output or sale of the product.

4. The Government of India attach great importance to the principles laid down by the Secretary of State. With regard to mining leases which the Durbar are competent to grant, the first two of the above three principles seem to have been recognised by the Durbar rules. But the Government of India desire that all the ~~xxx~~ three principles should be brought to the notice of the Durbar with reference to the practical application of those rules and that their careful observance may be ensured.

I have the honour to be,

Sir,

Your most obedient servant,

First Assistant Resident.

FROM

DR. W. F. SMEETH, M.A., D.Sc., A.R.S.M., &c., 59-18.
 Director, Department of Mines and Geology,
 Mysore State.

TO

D.M. Narasinga Rao, Esquire, B.A., B.L.,
 Secretary to the Government of His Highness
 the Maharaja of Mysore,
 General Department.

SIR,

In reply to your letter No.G.13457, dated 28th March 1916, I have the honour to forward herewith File No. 145/1903-04 containing Residency letter No.3257, dated 9th July 1900, and to state that letter No.7159, dated 4th November 1909, is contained in File No. 25/1908-09 which was forwarded to you with my letter No.2970, dated 21st June 1915, and is now with you.

not possible, inevitable.

2. As regards the principles (i), (ii) & (iii) laid down by the Secretary of State and quoted in the enclosure to your letter under reply, I have the honour to observe as follows :-

(a) Principle (i). No action is required. The Durbar is empowered to grant leases under their Rules within a limit of 10 square miles of area without reference to the Government of India and to sanction the transfer of the same.

(b) Principle (ii). It is not very clear what this means or how it could be applied practically. The area in which valuable deposits occur is usually

usually determined by prospecting and mining work conducted under licenses and leases and is not known beforehand from surface examination. It is not therefore possible to say beforehand whether or not a substantial portion of the deposits is being left unallotted.

Supposing however a considerable area was known or suspected to contain valuable deposits and a portion of the area was leased and worked successfully it becomes a question as to how long the remainder of the deposits is to be left follow - whether permanently or for what period.

From the point of view of practical politics each case should be dealt with on its merits and the Government of India might be asked to state whether there are any specific minerals the prospecting for and mining of which should be restricted.

In Mysore a prospecting license is generally granted over several square miles and the licensee has the right to select only one square mile of this area for a mining lease. A considerable period usually elapses before the area for a mining lease is selected and some information is obtained about the character of the deposits and Government will then be in a position to decide, with the aid of their technical advisers, whether more mining leases should be granted or whether work should be restricted. The intention of the Secretary of State probably refers particularly to specially valuable minerals of rare occurrence and if such were to be found in Mysore, the terms on which they should be worked would be a matter for special consideration. I know of no such case at present. I would suggest that the principle laid down by the Secretary of State should be noted for special consideration in any particular case to which it can be reasonably applied.

(c) Principle (iii). It is difficult to foresee how this would work out in practice or whether it might not seriously interfere with legitimate business. Mysore outputs are comparatively small and it might be quite impossible for a lessee to find a market for his minerals or to arrange independent sales in opposition to or competition with much larger producers elsewhere. Probably the intention is to discourage large combines and this depends on the power to attach undesirable combines at their headquarters or chief centres of activity. The effect of putting restrictions on Mysore lessees would be infinitesimal and likely to result in harm to the small industries of Mysore without sensibly affecting the larger interests outside of the State.

3. If the Government of India considers it to be necessary as part of a general line of policy, I see no objection to inserting the following condition at the end of Clause 4 of our mining lease.

Y
outside
the State
Clause 4. Together with liberty * * * * prepared therefrom "subject to the condition that he shall not, without obtaining the consent of the lessors, in writing, enter into any agreement with any other person or corporation for the joint control of the price, output or sale of the minerals or products :-"

and adding the following Clause after Clause 15 Viz.-
(14)

Y
outside
the State
15.a. (14.a.) "and will not, without obtaining the consent of the lessors, in writing, enter into any agreement with any other person or corporation for the joint control of the price, output or sale of the minerals or products .-"

4. It would be inadvisable to make the prohibition absolute as we do not know where it may lead to and it will be sufficient, if any such agreement is necessary or desirable, that it should receive the approval of the Durbar.

I have the honour to be,

Sir,

Your most obedient servant,

As revised by the Second Member
Date 10/10

Pol. 1145/87-14-3-17

GEN. & REV. SECRETARIAT.
TYPING Sec.
12 MAY 1917

To

The First Assistant to the

Hon'ble the Resident in Mysore

S i r,

I am directed to refer to Mr. Warburton's letter No.2052, dated the 23rd March 1916, communicating, at the instance of the Government of India, certain principles for adoption by the Durbar in connection with the grant of mining leases in the State.

φ

2. In the first place it is desired that the Durbar should act on the advice of the Government of India in giving their consent to any transfer of the interests conferred by any such lease or sub lease, or of any part of them. It is not, however, clear whether this procedure should be followed irrespective of the area covered by the lease concerned. The rules now in force on the subject have received the approval of the Government of India and, under the ^{decision} ~~orders~~ of that Government conveyed in paragraphs 2 and 3 of Mr. Copeland's letter No.7159 dated the 4th November 1909, the Durbar can at present sanction the grant and a fortiori the transfer

200/1975

200/1975

2.

of any mining lease in accordance with the above rules and no reference to the Government of India is required unless the total area covered by the leases proposed to be granted to any one person or company exceeds ten square miles. The procedure now suggested viz., that all transfers irrespective of area should be subject to the sanction of the Government of India, will, the Durbar apprehend, cause inconvenience. I am to add that there are sufficient safeguards against mining rights in the State passing into undesirable hands, as under the rules now in force no lease can be granted or permitted to be transferred except with the previous sanction of the Durbar and they have already taken measures to see that foreigners are not allowed to acquire such rights as suggested in your letter No.566 dated the 12th August last.

3. The second principle enunciated in the letter under advertence requires that the area covered by any lease or sub lease should be such as to leave unallocated a substantial portion of the deposits of the mineral affected, especially if it is one of rare occurrence. But the practical application of this principle with regard to minerals that have not been sufficiently explored is difficult, as the areas in which mineral deposits occur

16
3.

are usually determined by actual prospecting and mining work conducted under licenses and leases. Further even in the case of minerals about which the necessary information for the application of the principle is available, the question arises as to how long the opening up of the portion of the deposits so reserved is to be deferred. Each case will have therefore to be disposed of on its merits. The Durbar Will, however, be prepared to take such steps as may be practicable in the direction suggested.

4. As regards the prohibition of lessees and sub lessees from entering into any arrangement with any other person or corporation for the joint control of the price, output or sale of the products, the Durbar have no objection to insert a provision in future leases precluding lessees from entering into such arrangements without the previous consent of the Durbar by amending clause 4 and introducing an additional clause 1~~4~~ (a) in the form of the ^{mining} lease as follows:-

Clause 4. Together with liberty prepared therefrom "subject to the condition that he shall not, without obtaining the consent of the lessors, in writing enter into any agreement with any other

4.

person or corporation outside the State
for the joint control of the price, output
or sale of the minerals or products."

1~~4~~ (a) "and will not, without obtain-
ing the consent of the lessors, in writing
enter into any agreement with any other
person or corporation outside the State
for the Joint control of the price, output
or sale of the minerals or products."

I have etc.,

Correspondence ending with letter No. 3125, dated 1st April 1916, from the Director, Department of Mines and Geology, regarding certain changes proposed to be made in the rules for the grant of Exploring and Prospecting Licenses and Mining Leases published with Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916.

Order No. G. 2746—Geol. 59-15-7, dated 29th August 1917.

The Government of His Highness the Maharaja consider that lessees and sub-lessees should be prohibited in future from entering into any arrangement with any person or corporation outside the State for the joint control of the price, output or sale of the products, without their previous sanction and consequently direct that clause 4 in the form of the mining lease be amended and a new clause 14 (a) be added as shown below :—

(1) At the end of clause 4, a comma will be substituted for the semi-colon.

(2) The following will be added to clause 4 after the words “prepared therefrom,”

“subject to the condition that he shall not without obtaining the consent of the lessors, in writing, enter into any agreement with any other person or corporation outside the State for the joint control of the price, output or sale of the minerals or products.”

(3) After clause 14, the following will be added as 14(a).

“And will not, without obtaining the consent of the lessors, in writing, enter into any agreement with any other person or corporation outside the State for the joint control of the price, output or sale of the minerals or products.”

2. These alterations will be separately notified for the information of the public.
